Stop the Clog Monster in its tracks.

Catch the non-flushable wipes and trash before they clog pipes – and pollute our waters.

What happens to non-flushables? Some mix with fats and oils dumped down drains to form enormous "fatbergs" that clog sewers. Others go on to pollute rivers, streams and oceans.

CATCH & COLOR

Find the objects that should NOT be flushed down the toilet:

- ☐ bandage
- ☐ straw
- ☐ soda can
- ☐ face mask
- ☐ rubber glove
- ☐ diaper
- ☐ cotton swaps
- ☐ sock
- ☐ contact lens
- ☐ cleaning wipes
- ☐ baby wipes
- ☐ batteries
- ☐ potato chip bag
- ☐ cell phone
- ☐ superhero figure
- ☐ plastic bead necklace
- ☐ false teeth
- ☐ watch
- ☐ diamond ring
- ☐ dental floss

Responsible Flushing Alliance

WHAT'S NON-FLUSHABLE?

Always look for the D_ N_ _ F_ _ _ _ symbol on wipes packaging to see whether or not they can be flushed.
